

CN 12V120Ah

CN Series

Document P54 | Page 1/1

PUBLISHED MODEL DATA

Nominal voltage	12 V
Rated capacity	120 Ah
Dimensions (L x W x H)	406 x 174 x 209 mm
Total height	237 mm
Terminal	M8
Published dimension tolerance	+/-3 mm

PRODUCT OVERVIEW

Energy storage batteries are devices that can store electrical energy and release it when needed. They play a vital role in modern energy systems. These battery systems are widely used in various fields, including but not limited to the integration of...

PUBLISHED PRODUCT HIGHLIGHTS

- High-tin multi-element alloy grids and special lead paste formulations enhance the corrosion resistance of the grids
- Nano-silica gel electrolyte solves the problem of electrolyte stratification and extends the cycle life of the battery
- With a large heat capacity, it reduces the risk of thermal runaway, is less likely to dry out, and can be used in relatively harsh environments

APPLICATIONS

Communication base stations, UPS (Uninterruptible Power Supplies) | High-temperature base stations without air conditioning and with large temperature differences between winter and summer. | Wind-solar energy storage communication base stations where power outages are...

ORDERING AND DOCUMENT CONTROL NOTE

Product appearance, terminal configuration and dimensional tolerances may vary by order. Request the current approved MSDS/SDS, certification scope, complete discharge data or quotation when required.
